

S669L: standard vs adaptive 90% CV+ intervals Equal-protein calibration · median point prediction

Adaptive width quintile 1 · all 134 mutations: 3.36–4.39 kcal/mol

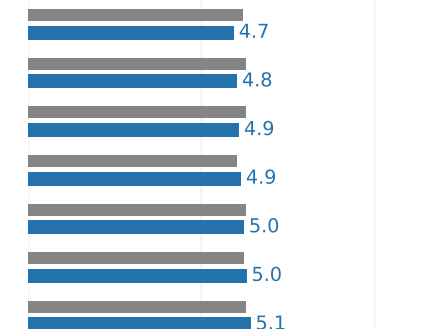

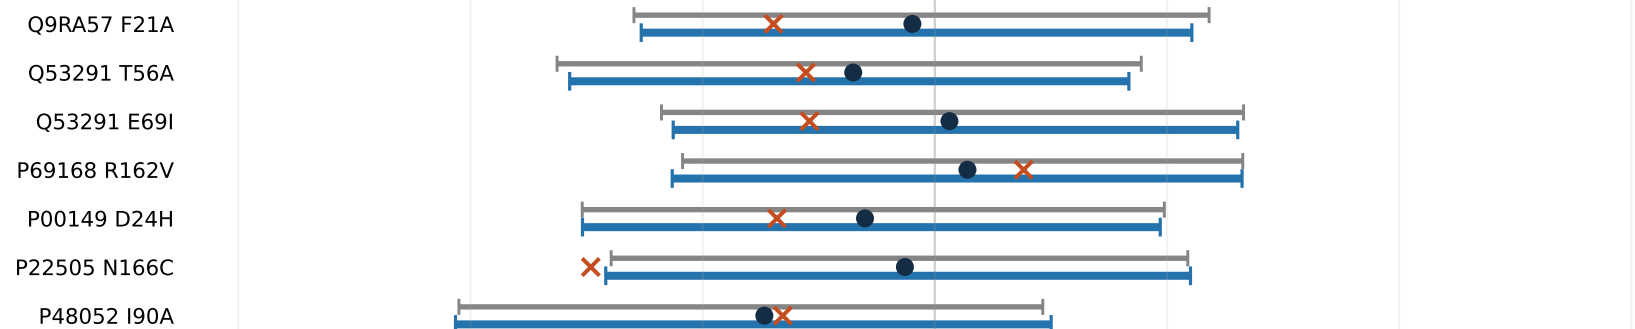

- Standard CV+
- Adaptive CV+
- Prediction (median)
- Observed

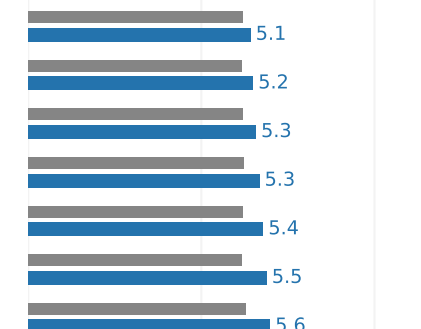

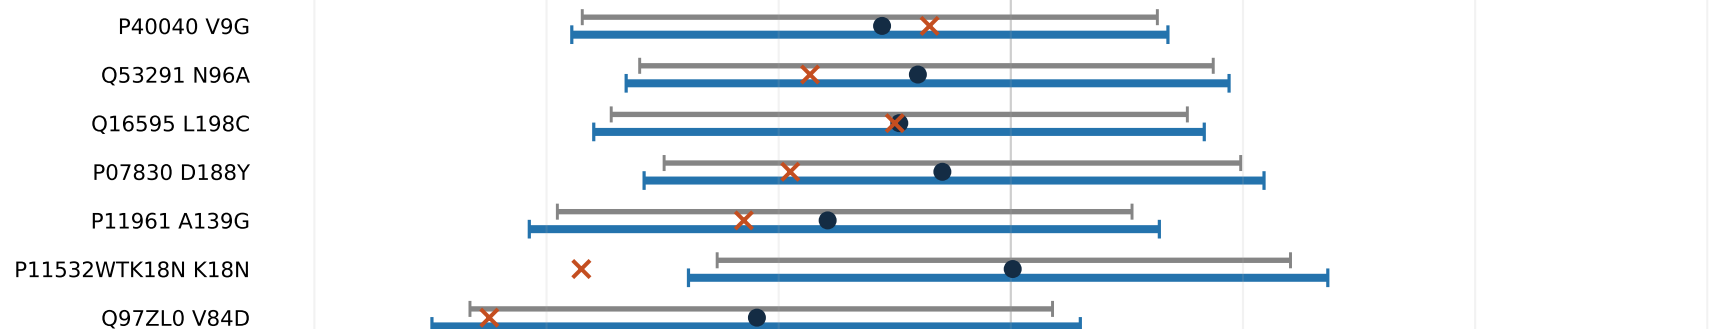

Adaptive width quintile 2 · all 134 mutations: 4.40–4.74 kcal/mol

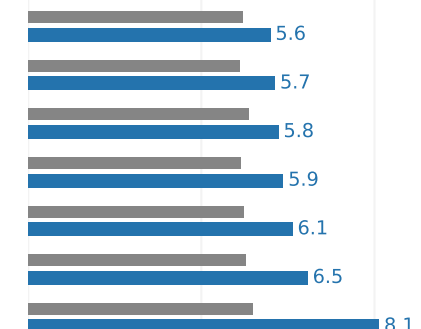

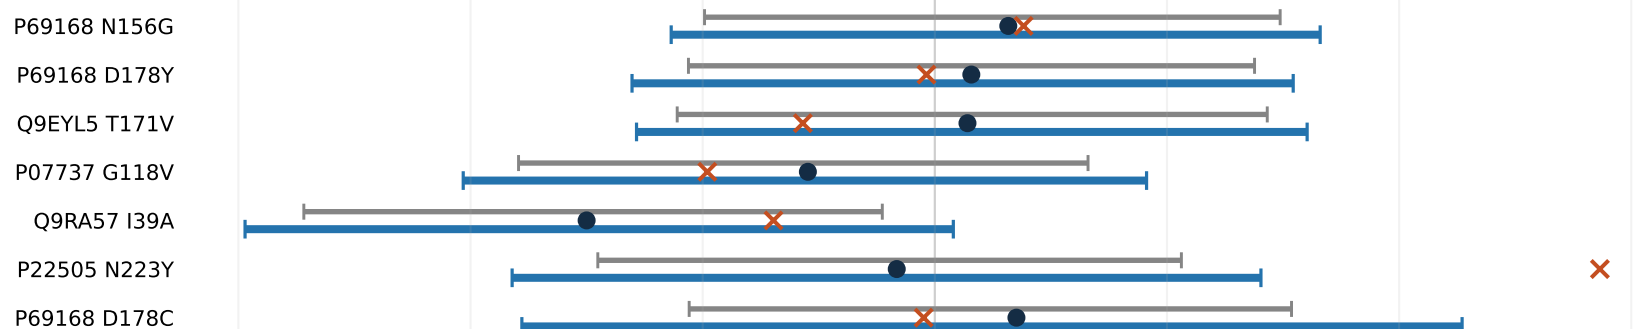

Adaptive width quintile 3 · all 134 mutations: 4.74–5.13 kcal/mol

Adaptive width quintile 4 · all 134 mutations: 5.14–5.59 kcal/mol

Adaptive width quintile 5 · all 133 mutations: 5.59–8.10 kcal/mol
